Advisory Addon	Examiner	Art Unit			
	Lisa M Caputo	2876			
The MAILING DATE of this communication appears on the cover sh t with th correspondence address					
THE REPLY FILED 26 May 2004 FAILS TO PLACE THIS APPLICATION IN CONDITION FOR ALLOWANCE. Therefore, further action by the applicant is required to avoid abandonment of this application. A proper reply to a final rejection under 37 CFR 1.113 may only be either: (1) a timely filed amendment which places the application in condition for allowance; (2) a timely filed Notice of Appeal (with appeal fee); or (3) a timely filed Request for Continued Examination (RCE) in compliance with 37 CFR 1.114.					
PERIOD FOR REPLY [check either a) or b)]					
a) The period for reply expires 3 months from the mailing date of the final rejection. b) The period for reply expires on: (1) the mailing date of this Advisory Action, or (2) the date set forth in the final rejection, whichever is later. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of the final rejection. ONLY CHECK THIS BOX WHEN THE FIRST REPLY WAS FILED WITHIN TWO MONTHS OF THE FINAL REJECTION. See MPEP 706.07(f). Extensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).					
1. A Notice of Appeal was filed on Appellant's Brief must be filed within the period set forth in 37 CFR 1.192(a), or any extension thereof (37 CFR 1.191(d)), to avoid dismissal of the appeal.					
2. The proposed amendment(s) will not be entered because:					
(a) ⊠ they raise new issues that would require further consideration and/or search (see NOTE below);					
(b) ☐ they raise the issue of new matter (see Note below);					
(c) ☐ they are not deemed to place the application in better form for appeal by materially reducing or simplifying the issues for appeal; and/or					
(d) they present additional claims without canceling a corresponding number of finally rejected claims.					
NOTE: See Continuation Sheet.					
3. Applicant's reply has overcome the following rejection	ction(s):				
4. Newly proposed or amended claim(s) would be allowable if submitted in a separate, timely filed amendment canceling the non-allowable claim(s).					
5. ☑ The a) ☐ affidavit, b) ☐ exhibit, or c) ☑ request for application in condition for allowance because: Set		sidered but does NOT place the

Continuation Sheet (PTOL-303) 110/084,047

Application No.

Continuation of 2. NOTE: The addition of the limitation "each plural word/phrase table corresponding to a respective attribute" to each independent claim raises a new issue that requires further consideration and search since this limitation was not considered previously.

Continuation of 5. does NOT place the application in condition for allowance because: In response to applicant's argument that the sentence pattern table in Kii does not correspond to the message table of the present application, examiner respectfully disagrees. It is respectfullysubmitted that the sentence pattern table includes an attribute column in the form of the keyword column and a corresponding message column in the form of a sentence pattern column for storing message data for the attributes in the attribute column (i.e. keywords in the keyword column). In response to applicant's argument that the keyword attribution table and the sentenc composition rule table do not correspond to different attributes as clarified in the amendment claims with the limitation "each plural word/phrase table corresponds to a respective attribute" examiner respectfully submits that this is a new issue that requires further consideration and search.
